

OS Series

Silent air compressor
range

Air. Anytime. Anywhere.

Join the ABAC advantage

Our brand values

ABAC Aria Compressa was founded in 1980 but its compressed air heritage dates back over 60 years. Customer expectations have always driven product development, resulting in a portfolio which fulfills your compressed air needs and offers you the value you are looking for. Additionally, our worldwide presence makes sure we are at your service at all times.

Benefit from these five strong values and team up with ABAC today.

★ Technology leader

With years of experience, ABAC can rely on an extensive technical know-how to provide you with compressed air solutions that get the job done. Understanding the needs of our customers, we lead the compressed air field by example.

★ Recognised quality

You expect quality and reliability from your ABAC compressor. Our production facilities combine history and experience with the latest production methods. We certify and guarantee every product we manufacture to make sure that ABAC is a partner you can rely on.

Air. Anytime. Anywhere.

★ Value for money

As a customer, you want a product that offers you value for money. ABAC does just that, offering a full portfolio of products at a competitive price. With the right mix of flexibility and experience we deliver value at the right price to the industrial, professional and DIY compressed air markets.

★ Extensive network

A vast network of distributors and resellers (over 1000 in more than 100 countries) means that there is always an ABAC representative nearby to provide you with service, support or products. As such, all you need to do is focus on your business, ABAC takes care of the rest.

★ User-friendly design

Developing products with the customer in mind has always been a mainstay of ABAC's philosophy. As a result, ABAC compressors are designed to be easy to use providing you compressed air that is available when and where you need it.

Join the silent revolution

In our modern world, we are constantly surrounded by noise. In the streets, in the workshop, even in our home silence is a precious gift that we try (and often fail) to find. And despite our search for quietness, we are usually forced to live and work next to noisy machinery that make our lives harder, the air compressor being one of the main causes of a loud and uncomfortable room.

This is why ABAC has designed the new OS series: to give you the peace and comfort that you deserve in your working environment without compromising

on performances. Be it for irregular use, or as the main tool of your business, ABAC OS will silently help you in all your activities and it will do it without making your life harder. With a noise level of 59 dB(A), it's comparable with the loudness of a relaxed conversation between friends, to the point that you will not be able to revert back to a standard, noisy compressor.

However, silence is not the only advantage of the OS range. Under the uniquely designed enclosed pump, beats a powerful heart: the direct-driven element can

reach up to 9 bar of pressure, allowing you to use specialized tools that require higher pressure than most common, compact air compressors can deliver. The fact that the OS is oil-free and direct-driven it is just an additional benefit, as you can have all these advantages without the hassle of frequent maintenance: say good-bye to dirty hands and floors at every oil change, or having to replace the belt of your compressor every few months. The OS range will deliver clean, constant air for hundreds of hours without the need of any intervention.

Easy maintenance

Oil-free and direct-driven, the OS series requires limited maintenance. Less time for servicing, more time to work.

Safety

The enclosed design of the pump protects your hands from hot and moving parts, allowing you to work without worries.

Silence and Compactness

Save space around you with a silent, compact yet powerful air compressor with an air displacement up to 230 l/min.

Plug and Play

OS compressors are plug and play, only requirement is single phase electrical supply and turn on compressor.

Versatility

OS series delivers up to 9 bar of pressure allowing you to use more tools, specialized tools.

The sound of silence

Enjoy working in a quiet environment thanks to the low noise level of the OS range, your silent business partner.

Many models, same excellent quality

From 0,75 to 2 HP, from 6 to 50 lt for a wide range of combinations. Many variation for a common word: excellence.

Safe and comfortable

The new compact, innovative enclosed pump provides safety without affecting usability, with a quick access to the on-off button, manometer and pressure switch.

Less space, more air

A small compressor that outweighs the competition with up to 9 bar of pressure without required additional space in your workshop.

Silent air compressors

START SILENT

Compact and silence air compressor.

Applications

Comfort

Light-weight. Easy to carry wherever you need it

User-friendly and clear pressure gauges

Stability

Reduced vibrations and noise thanks to rubber feet
