Spare Parts

Hoffmann Filter offers a complete line of spare parts for your filtration system. We can supply the entire range of replacement pumps, motors, switches, and any other essential parts to the operation of your machine - many of them are kept in stock at our plant in Brighton, MI. We also carry a full line of filter media and mist collector replacement elements. For current pricing and availability information, please email sales@hoffmannfilter.com or call us at 248-486-8430.

Filter Media

We offer a complete line of filter media to meet virtually any filtration need. The chart below represents an overview of our standard media and the widths it comes in. In addition to our standard media, we can also custom order any media in any width and length combination needed.

Standard Media Information Sheet

Hoffmann Part Number	Media Type	Weight (ounces)	Widths in stock (inches)	Micron Rating*	Best Used With...
