<b>Requisitioner:</b>	Harold Crosby/05862	<b>Req Ref:</b>	2501869
<b>Approver:</b>	Peter Fitzsimmons		
<b>Contract:</b>			
<b>Final Location:</b>	- *Unknown*	<b>Currency:</b>	- *Unknow
<b>Criticality:</b>	4 - *Unknown*	<b>R.O.S. Date:</b>	27 Jun 2016
<b>Dest:</b>	NO105	<b>Client Ref:</b>	

**Total Items in this Requisition:** 2

Equipment name: CHILL WATER PLANTS

The accumulators are required for the closed loop chilled water systems. The fwd system has one failed accumulator on the discharge of the pump therefore we need one to fit and one spare. The aft syatem is a different size and we need a spare. Please note the aft chiller accumulator has a side entry for the fluid connection and the fwd chiller accumulator is a bottom entry. You can also see from the sprecifications the fwd is 25 liters capacity and the aft is 50 liters capacity.

Remarks:Re-raised uner Reqn.2501667 which has being cancelled.
